

12/12/17

Dear Saving Teens,

My name is John and I'm currently in residential treatment at HW Legacy Ranch. Your organization is helping pay for my stay here and for that I'm truly grateful. Thank you for helping my parents ~~and~~ getting help for me. Before I came here I was living in a house with my grandma, grandpa, sister, and dad. My family situation was a little rough as my grandpa has ~~alzheimer's~~ alzheimers, my dad has dementia, and my grandma was ~~old~~ aging and wasn't able to take care of everyone. I wasn't in school anymore and I had a substance abuse problem which was only making matters worse. I needed to turn my life around and I've done that with my opportunity to come here. Being at this program has undoubtedly saved my life. Through this experience I've learned a lot about myself and what I want my life to look like. I've also built a relationship with God which has helped me through my recovery where as

I didn't have a belief in a higher power before I came here. I've come to love this place and I don't think that I could've ended up somewhere better fit for me than KW. I'm moving forward now and I'm making the most out of everyday. I've made a lot of change here and my future looks a whole lot brighter. My dad is now in a memory care facility and my grandparents have caretakers to help them. As for me I'm going to be moving in with my Uncle which I'm really excited before. Thank you so much for helping fund my stay here. My life has turned a 180 and I'm looking forward to what it has to offer.

Sincerely,

John
